GREATER TOMORROW AFRICA INITIATIVE ANNUAL REPORT

OVERVIEW & REPORT

WWW.GTAINITIATIVE.ORG

COMPANY PROFILE AND SUMMARY

The Greater Tomorrow Africa Initiative is a conglomerate of organization, groups and companies with very good influence in the governments of where we operate to bring the change we want in Africa.

We have the technology, the know-how and relationships around the globe to build up any country we choose to and the impact would be great.

Our belief is that; We the diaspora and the elite and intellectual Africans hold the key to a sustainable solution, let's roll our sleeves and do the work, enough of praying alone.

Africa our cradle is the beginning of civilization and humanity but we have relegated ourselves to the bottom, getting excited about handouts and other people developing our land and in the process hoodwinking us as they deplete our God given wealth.

We at GTAI believe that we need to rise up and take charge because as a unit we have the capacity to take charge and make the change we want to see.

It's our time, It's Africa's time

WWW.GTAINITIATIVE.ORG

COMPANY PROFILE AND SUMMARY

From advocacy to investment traction, **Greater Tomorrow Africa Initiative (GTAI)** is the organized, self-governing, mutually beneficial, non-governmental body driving enterprise growth and development in Africa.

This is done through the assemblage of organizations, groups and companies with extreme influence in global public and private sectors in order to bring change in all countries of Africa.

The Initiative brings new culture, technology, know-how and relationships from around the globe to rebuild our continent, one country at a time.

GTAI is uplifting and strengthening the continent's corporate community, stimulating development discourse, promoting pragmatic possibilities for education, economy, governance, and health, Agriculture & technology.

For us, the promises and privileges of African competitiveness should be explored and exploited by every African everywhere.

We are providing opportunities for astute and impeccable approaches to all aspects of African growth and development because it's Africa's time. It's our time!

It's our time, It's Africa's time

GTAI NIGERIA REPORT

A number of people from different spheres of the nation have become aware of the aim/objectives of GTAI and have been enlisted as members.

An ad-hoc leadership team spread over the country had been set up for the group in Nigeria.

We have been working on the formal registration of the organization for a while now, with picking of an acceptable name to CAC being a challenge.

In the interim, we had identified for pursuit two projects;

SHORT TERM

- (i) Enhancing the IT center in a school in Lagos (Badore model School) or
- (ii) Renovating a classroom block in the school.

LONG TERM

Working with an NGO in Lagos to establish a 500 capacity Women Skills acquisition/empowerment campus.

GTAI Nigeria has been in attendance at the various Summits in Spain. In the last Summit, Nigeria was voted as the next country of focus for GTAI International forum as presently being done in Uganda.

It's our time, It's Africa's time

WWW.GTAINITIATIVE.ORG

GTAI UGANDA REPORT

Uganda has been lucky to be chosen as the headquarter for this divine and timely initiative that is GTAI and as a result alot is taking place already;

VANU LICENCE: VANU is an innovative telecom company and in April 2018 during one of the Annual GTAI conferences in Valencia Spain, Andy Beard from VANU made a presentation about his company and what it can do in Africa for Africans following a number of African challenges that were presented by various delegates one of which was telecommunications network coverage especially in the rural areas of Africa.

"At GTAI we believe that there should be parity for each and every one and that people in the rural areas should not be left behind."

Remember one of our main agendas is technological emancipation for all Africans yet this cannot be achieved without good and reliable Tele-connectivity.

It's our time, It's Africa's time

WWW.GTAINITIATIVE.ORG

GTAI UGANDA REPORT... CONTINUATION

After VANU's presentation it was established that they were the best fit for rural telephony and connectivity because it's model and innovation would allow most African countries to be covered 100%.

The VANU model uses economical solar powered towers configured to serve the small and sparsely populated areas being able to cover less than 1km radius, covering a population of less than 300 people and a population density of less than 50 people per square Km. This is not something that MNOs (Mobile Network Operators) or traditional tower companies are able to do due to their network infrastructure economics.

With this VANU innovation, we realised that its possible for the rural to enjoy the same tele-connectivity as the urban thus realising our parity objective.

Together with VANU, **GTAI** has acquired a trading licence and an application for the operating licence was submitted.

It's our time, It's Africa's time

WWW.GTAINITIATIVE.ORG

GTAI UGANDA REPORT...CONTINUATION

THE RCDF PROJECT:

Rural Communications Development Fund is a Ugandan government program under which they established more than 1300 ICT labs through Uganda Communications Commission (UCC) to facilitate ICT penetration in the country and they have since had challenges in maintaining the labs.

GTAI had a meeting with Nyombi Thembo, the Director of RCDF to chart a path for a PPP so that we can bring on our partners and internal expertise to run and manage these labs at a subsidized cost and also provide world class certifications from key players such as Microsoft to make the young people competitors on the world stage.

It's our time, It's Africa's time

GTAI LAUNCHES A BUSINESS INCUBATION PROGRAM

BUSINESS INCUBATION & DEVELOPMENT PROGRAM

Greater Tomorrow Africa is launching a business incubator and development program starting in Uganda and later expanding to the entire region.

Uganda is known as one of the most entrepreneurial countries in the world but also has the highest business mortality rate in the world so GTAI is stepping in the gap to diagnose the problem and provide the appropriate solution.

GTAI has connected with Professor Laura Orobia, a seasoned lecturer at Makerere University Business School specialising in the areas of Accounting and Entrepreneurship. With her invaluable expertise and knowledge, we plan to formulate a practical program to equip the many aspiring entrepreneurs.

DON'T MISS THE GTAI BUSINESS INCUBATOR PROGRAM

PROFITABLE IDEA GENERATION

FACT 1 😊
Uganda is one of the most entrepreneurial countries in the world.

FACT 2 😞
Uganda has one of the highest business mortality rates in the world.

CREATIVITY & INNOVATION

BUSINESS PLANNING & FINANCIAL MANAGEMENT

Greater Tomorrow Africa Initiative is organizing an entrepreneurship and business incubation program to equip the aspiring business person and make a difference in the Ugandan business scenery.

GTAI UGANDA REPORT...CONTINUATION

ST. KIZITO PS RENOVATION

Greater Tomorrow Africa Initiative undertook the renovation and facelift of St. Kizito primary school in Kamuli district in Eastern Uganda through a sister construction company, AC Yafeng construction company.

As one of our areas of focus, Education is top on our agenda as we believe that liberation of Africans starts with intellectual empowerment and in conducive environments to make Africans competitive.

Before

It's our time, It's Africa's time

WWW.GTAINITIATIVE.ORG

GTAI UGANDA REPORT...CONTINUATION

ST. KIZITO PS RENOVATION

St. Kizito classrooms were given floors, fitted with metallic and glass windows and doors. A proper inner and outer finishing complete with a fresh coat of paint.

This we believe will give the students a conducive environment to learn with eagerness and also promote our mission of a more productive and result oriented education for all Africans.

AT THE LAUNCH OF THE "DISCIPLE" BOOK

LAUNCH OF THE "DISCIPLE" BOOK

The "Disciple" authored by the GTAI Global President, a powerful book packed with wisdom was launched and coincided with his birthday dinner. The event was graced by the former Vice President of the Republic of Kenya Dr. Stephen Kalonzo Musyoka, the High commissioner of Kenya to Uganda, The High commissioner of Nigeria to Uganda, Pastor Ben Nebechuku of Living Word Assembly church and Maama Charity, many government dignitaries and the Business community in Uganda.

The President GTAI Global, Arch. Emeka Okoye, the birthday celebrant and author of the "Disciple" gave a very moving speech about Africa's Renaissance and factual comparisons between Africa and Europe and it was clear that with no doubt Africa is the greatest continent in the world.

AT THE LAUNCH OF THE "DISCIPLE" BOOK

The chief guest, HE. Stephen Kalonzo Musyoka, the former Vice President of the Republic of Kenya was so moved by the speech that he suggested that Arch. Emeka should be invited to be the key-note speaker at African Union Assemblies because all African leaders need to listen to him to learn a thing or two about how to make Africa Great.

The speech made us believe that it's indeed Africa's time and it's our time. Appreciation goes to everyone that organized and attended the function.

"It's Africa's time, It's our time"

GTAI EUROPE REPORT

GLOBAL SUMMIT EUROPE 2019....

ON Thursday 27th – Saturday 29th June 2019, Diasporas in all walks of life, investors, project owners, global institutions and organizations as well as the academia converged for the purpose of creating strategic partnerships, for lasting solutions to African challenges devoid of public sector bottlenecks.

It's our time, It's Africa's time

WWW.GTAINITIATIVE.ORG

GTAI EUROPE REPORT

GLOBAL SUMMIT EUROPE 2019..

The aim of the Summit was to assemble Africans on the continent and in the Diaspora to strategize and agree on options for a way forward and to become instruments of change in Africa.

They deliberated on key issues, with a specific focus on how their resources and talents can be applied to the sustainable development of the continent, thus fulfilling the purpose for our existence as Africans and to be alive and in the positions we find ourselves at this appointed time.

The focus of the Summit was on these Spheres: HOUSING, ECONOMY, BLOCKCHAIN, EDUCATION, GOVERNANCE and HEALTHCARE.

It's our time, It's Africa's time

GTAI EUROPE REPORT... CONTINUATION

Some Highlights from the last conference...

AGILE - African Governance Innovations and Leadership Elevation

Bringing the overpass and crossings for articulating vocational and entrepreneurial development. The threat of global competition creates additional cause for concern, as China is projected to graduate 200 million students from college in 2030 – a number outpacing the entirety of the entire African labor market.

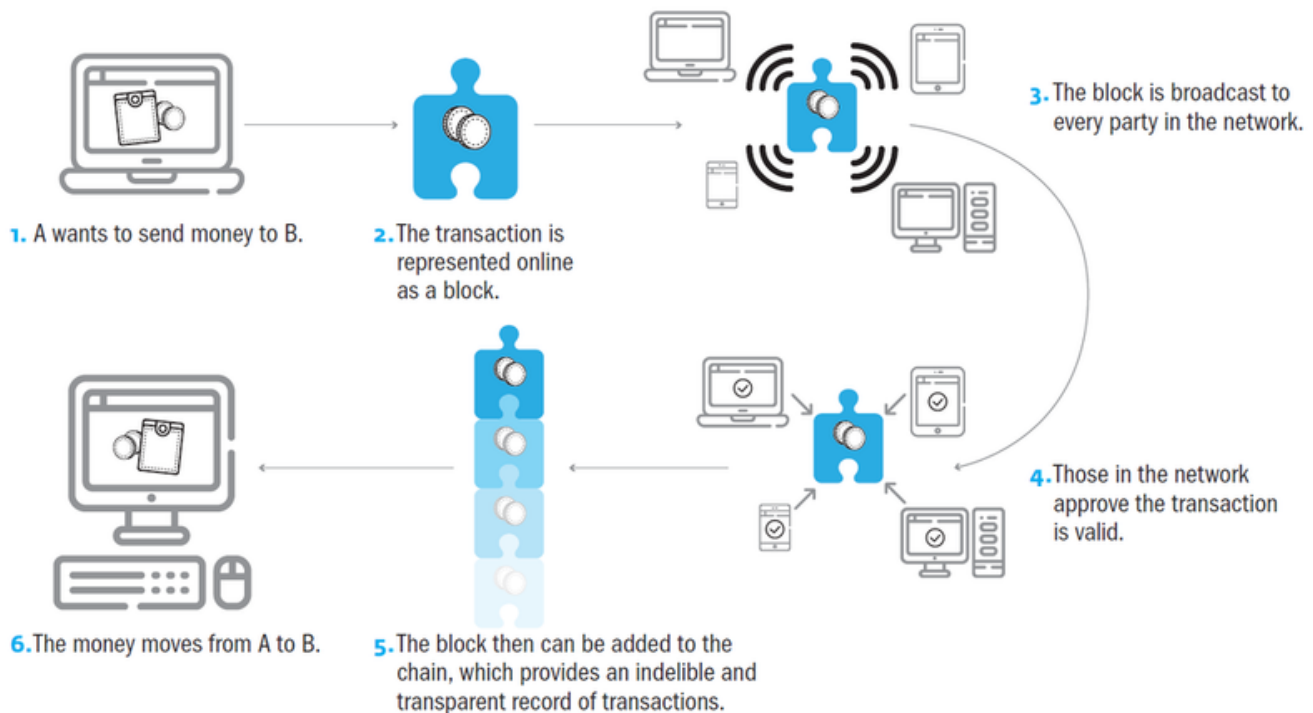

FIGURE 3 How does blockchain work?

BLOCKCHAIN, African Governance and Economy

Bringing understanding to Blockchain in Governance. To the crypto-anarchist, blockchains are powerful tools for decentralising many of society's social, political, and economic infrastructure and to GTAI, it's Africa's future.

It's our time, It's Africa's time

GTAI EUROPE REPORT... CONTINUATION

Some Highlights from the last conference...

SEPHA – Self Empowerment for Housing in Africa

As rapid urbanization pushes up demand for housing in Sub-Saharan Africa, the continent's cities are becoming the new home to over 40,000 people every day, many of which are without a roof over their heads.

Self-Empowerment Program for Housing in Africa (SEPHA) Program is launching a development advantage scheme for property in Africa.

GTAI-SEPHA is providing new and affordable housing and encouraging the housing sector on the continent, major employers of labor and manufacturers of building materials and components to embrace the strategy.

GTAI PARTNERS WITH THE BLACK PROFESSIONALS NETWORK

A STRATEGIC PARTNERSHIP

The Black Professionals Network (“BPN”) mission is to develop motivated and goal-oriented black professionals into industry-ready leaders for the organizations and communities and shrink the achievement gap. BPN provides programming, resources, and opportunities for those to advance their goals and form a collaborative network under the guiding principle “together, each achieves more.”

The new relationship we have fostered with GTAI is another milestone, for our objective as an organization is to be an internationally recognized organization that bolsters the career and lifestyle goals of black professionals around the world.

By collaborating with GTAI, we are able to expand our reach, diversify our network, and provide numerous opportunities to our members in explosive growth sectors within the continent of Africa.

It's our time, It's Africa's time

WWW.GTAINITIATIVE.ORG

GTAI PARTNERS WITH THE BLACK PROFESSIONALS NETWORK

A STRATEGIC PARTNERSHIP

While working with GTAI we aim to serve as a pipeline of highly skilled professionals from the diaspora for the continent and to showcase the vast potential for individuals and businesses in the US by bringing them together with the expertise of GTAI and its members.

GTAI PARTNERS WITH AFRICA WATER SOLUTIONS

AWS PARTNERS WITH GTAI

Africa Water Solutions (AWS) is a not-for-profit organisation registered to mitigate Water, Sanitation and Hygiene challenges in Uganda with her primary focus being children. The organization purposes to empower beneficiaries with improved access to safe Water, Sanitation and Hygiene using Community Centered Design Approaches (CCDA).

Her geographical scope includes; Namayingo, Tororo, Kumi and Soroti districts in Eastern Uganda, Buikwe district in Central Uganda, Kabale, Rukiga and Kanungu districts in South-Western Uganda, as well as Pakwach, Zombo and Nebbi districts in the West Nile region.

PROJECT GOAL

By 2024, AWS in partnership with GTAI will have contributed to the reduction of water scarcity and related diseases among 34,540 households and institutions (10 schools and 4 health centers) through improved access to safe water, Sanitation and Hygiene.

It's our time, It's Africa's time

WWW.GTAINITIATIVE.ORG

GTAI PARTNERS WITH AFRICA WATER SOLUTIONS

AWS has partnered with GTAI to access funding and provide access to Safe water, improved Sanitation and Hygiene for disadvantaged communities in Kisoro, Kabale and Rubanda districts South Western Uganda.

GTAI will use its vast network to mobilise funding for the project implementation. Access to clean and reliable water is a basic need and if our people are to thrive and impact their communities, we believe that access to water is very pivotal.
